## Company Introduction

Wenzhou Feihua Printing Machinery Co., Ltd. has more than 20 years of experience in post-press equipment manufacturing, specializing in the production of laminating machines, comprehensive coating machines and pre-coating films. A professional company integrating scientific research, design, manufacturing, and service, with the business tenet of "professionalism, focus, innovation, and service", scientific management, and strive to meet customer requirements to the greatest extent

## Manual Laminating Machine-YFMC-720B/920B

## 一. Manual Laminating Machine

Manual laminating machine is a kind of laminating equipment with the least investment. It is precisely because the pre-coating laminating machine adopts an environmentally friendly laminating process, and it is easy to operate, low in investment and easy to use, whether it is mass production or a small amount of lamination. , it can be used with ease, and the market potential of using manual laminating machines widely in the market is still huge. A series of manual laminating machines developed and sold by NEW STAR are the most affordable, direct and convenient service.

The manual laminating machine developed in China has a small footprint and is easy to operate. It is equipped with automatic temperature control and speed regulation, and it is also equipped with automatic one-time slitting of multiple rolls and redundant materials.

Manual laminating machine uses BOPP pre-coating film as the material. It can be single-sided and double-sided laminating. It can be widely used in the surface lamination of packaging boxes, food boxes, books, drawings, advertisements, documents, laser glass and other products. The printed matter after the film is waterproof, durable, clear in pattern and strong in three-dimensional sense.

## 二. **Scope of adaptation:**

YFMB series is a practical semi-automatic laminating machine launched by our company, which is suitable for posters, books, brochures, posters, color boxes, color box packaging, bags and other laminating process

### 三: Technical parameters

Mode	YFMC-720B	YFMC-920B
Max laminating width	620MM	820MM
Speed of laminating	0-30m/min	0-30m/min
Temperature of laminating	60-130℃	60-130℃
Total power	10kw	13kw
Voltage	380v	380v
Weight of machine	600kg	700kg
Overall Dimensions	1800*1300*1500mm	2200*1800*1500mm

### 四: Product Feature And Application

- Frequency converter is equipped for infinitely variable speed, and the operator can change the machine's speed easily and guarantee the machine's running stable.
- One-piece construction design makes the machine run more stably, and lengthens the machine's lifetime.
- Manual paper feeding.
- Magnetic regulating plate can be adjusted easily to regulate manual paper feeding.
- High precision of chrome plated heating roller is equipped with built-in oil heating system, which has excellent performance to temperature control. The laminating temperature is adjustable upon applications.
- Hydraulic pressuring system provides big and steady pressure to guarantee good laminating quality.
- Film cutter cuts film width to make it meet paper size. The cut film is left on the film release spindle.
- Film perforating wheel perforates film edge to make the separation of laminated paper easy.
- Laminated paper is rolled up automatically by the winding spindle. Winding speed is adjustable.

## 五: **After-sales service**

1. After the machine passes the acceptance inspection, the customer's operators will be provided with skills training or on-site operation training. The training time is 1-2 days.
2. From the date of acceptance of this equipment, any major quality problems will be unconditionally returned within seven days, and any quality problems will be guaranteed to be repaired free of charge within one year, except for wearing parts and human factors. The cost of replacing spare parts due to failure or damage caused by irresistible natural phenomena shall be borne by the customer.
3. After receiving the customer's repair notification, we will conduct remote analysis and solve the problem and provide the customer with a clear solution within 1 working day. Both parties can negotiate the time for after-sales service personnel to be in place, but our service personnel should arrive at the customer's designated service location within 48 hours.
4. After the warranty period, our company will still provide customers with spare parts at preferential prices. And provide customers with paid repair and maintenance services according to customer needs. The company has sales branches or offices in 28 provinces and cities across the country and in various countries around the world, which will greatly satisfy the sales and service capabilities of customers everywhere.
